Il sogno spicca il volo.

Nel 1958, conobbi questo fantastico bambino che sognava di diventare un pilota, si divertiva a sognare, costruendo aeromodelli e le loro eliche. Incominciò a fare il pilota di piccoli aerei da turismo perché amava il fascino unico dell'aviazione e viveva per quel **senso di libertà** che il volo è in grado di dare e con **il sogno di scoprire ed esplorare il mondo**. Era nato pilota, e dilettrandosi con aerei acrobatici si fece conoscere nel mondo dell'aviazione.

In 1958 I met this fantastic child who dreamed of becoming a pilot, he loved to dream whilst building airplane models and their propellers.

He started to pilot light aircraft because he loved the unique charm of aviation and he lived for the **sense of freedom** that flying gives you and with it **the dream of discovering and exploring the world**.

He was a born pilot, and by dabbling in acrobatics, he became well-known in the world of aviation.

The dream takes flight.

L'idea prende forma.

Un giorno ci fu una terribile emergenza e fu contattato per salvare una piccola comunità montana dalle fiamme. Il compito era estremo e pericoloso, ma il suo senso di libertà lo portò ad accettare. Sul filo delle fiamme domò l'incendio donando di nuovo libertà a quella gente.

Ora gli anni sono passati, i lavori estremi sono una intensa memoria, ma il suo fascino, il suo spirito libero e il suo sogno continuano a vivere dentro di lui, che guida con passione i più grossi aerei di linea volando nei cieli alla scoperta del mondo. **È da qui che il marchio Payper con il suo inconfondibile logo ad elica si riempie del suo sogno fatto di fascino e libertà.**

The idea takes shape.

One day there was a terrible emergency, and he was contacted to save a small mountain community from a fire. The task was extremely dangerous, but his sense of freedom led him to accept. Flying on the edge of the flames he put out the fire, freeing the people once again.

Years have passed, these extreme endeavours are only vivid memories, but his charm, his free spirit and his dream still live on inside this man who passionately pilots the biggest airliners, crossing the skies to discover the world.

This is why the Payper brand with its unmistakable propeller logo is filled with his dream of charm and freedom.

Ricerca & design.

LA QUALITÀ
SI FA STILE.

Creatività, ricerca e qualità sono le componenti imprescindibili del nostro processo produttivo, necessarie per rendere i **capi sempre più funzionali, confortevoli, innovativi e ricchi di fascino**. Dall'analisi meticolosa dei materiali, alla **progettazione stilistica**, alla cura della **confezione**, tutto è controllato nel minimo dettaglio, a **garanzia di standard qualitativi elevati e garantiti nel tempo**. La sinergia tra il reparto creativo ed il laboratorio tecnico interno consente di progettare **performanti dispositivi di protezione individuale di I, II e III Categoria, arricchiti da soluzioni dal design innovativo ed esclusivo**. La virtuosa collaborazione con i partner produttori, selezionati nel rispetto dei parametri internazionali di sicurezza e responsabilità sociale, completa la nostra visione di **abbinare stile e qualità ad una concreta azione sostenibile, per migliorare il presente e il futuro di tutti**.

Research & design.

QUALITY BECOMES STYLE.

Creativity, research and quality are the essential components of our production process, necessary to make garments increasingly functional, comfortable, innovative and full of charm. From the meticulous analysis of the materials to the stylistic design, to the care of the packaging, everything is controlled down to the smallest detail, to ensure high quality standards over time.

The synergy between the creative department and the internal technical laboratory allows us to design **high-performance Category I, II and III personal protective equipment, enriched by solutions with an innovative and exclusive design.** The virtuous collaboration with the manufacturing partners, selected in compliance with international safety and social responsibility parameters, completes our vision of **combining style and quality with tangible sustainable action, to improve everybody's present and future.**

Sostenibilità.

LO SVILUPPO
RESPONSABILE.

Fare con passione, innovazione, ma soprattutto “responsabilmente”. Mettere al centro dei processi la qualità della vita, producendo capi che puntino a far sentire sicure e a proprio agio le persone nella vita professionale e nel tempo libero è la nostra missione quotidiana. Per questo, **i temi della Sostenibilità e della Responsabilità Sociale d’Impresa sono diventati tratti salienti della governance aziendale, intraprendendo un fruttuoso percorso di certificazioni internazionali e di “best practice” orientate allo sviluppo qualitativo, sostenibile, etico.** Tutto questo si traduce nella capacità di integrare le proprie attività di business con il rispetto e la tutela degli interessi delle comunità con cui Payper si relaziona, ma anche con la salvaguardia delle risorse ambientali e la loro conservazione per le generazioni future.

L'obiettivo aziendale, nel medio termine, è **il raggiungimento del 100% della produzione di capi eticamente certificati**. Per questo, l'azienda ha aderito al programma **Better Cotton, investendo sulla produzione di articoli in cotone sostenibile**, con un'attenzione particolare alla salvaguardia delle comunità agricole e al controllo delle pratiche utilizzate. Inoltre, nell'ottica di un miglioramento continuo del processo produttivo, si prediligono materie prime riciclate e riciclabili, per **dare un contributo concreto all'ambiente e alla società**.

Sustainability.

RESPONSIBLE DEVELOPMENT.

Do things with passion, innovation, but above all “responsibly”. Putting quality of life at the centre of processes, producing garments that aim to make people feel safe and at ease in their professional lives and free time is our daily mission. For this reason, **the themes of Sustainability and Corporate Social Responsibility have become salient features of our corporate governance, embarking on a fruitful path of international certifications and “best practices” aimed at qualitative, sustainable, and ethical development.** All this translates into the ability to integrate our business activities with respect and protection for the interests of the communities with which Payper relates, but also with the protection of environmental resources, preserving these for future generations.

The company's objective, in the medium term, is **to achieve 100% production of ethically certified garments**. For this reason, the company has joined the **Better Cotton** programme, **investing in the production of sustainable cotton items**, paying particular attention to protecting the agricultural communities and to controlling the practices used. Furthermore, with a view to continuously improving the production process, recycled and recyclable raw materials are preferred, **to make a tangible contribution to the environment and to society**.
